Accessibility Plan

Updated: September 2022

Accepted by governors: September 2022

To be reviewed: September 2024

This Accessibility Plan is drawn up in compliance with current legislation and requirements as specified in relation to Disability, of the Equality Act 2010.

The Equality Act 2010 replaced all existing equality legislation, including the Disability Discrimination Act. The effect of the law is the same as in the past, meaning that “schools cannot unlawfully discriminate against pupils because of sex, race, disability, religion or belief and sexual orientation”.

According to the Equality Act 2010 a person has a disability if:

- (a) He or she has a physical or mental impairment, and
- (b) The impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

At Fairhouse Primary School we ensure we follow the Equality Act 2010 and ensure protection against discrimination, harassment and victimisation (direct or indirect) for everyone under the nine characteristics: age, disability, gender reassignment, race, religion or belief, sex, sexual orientation, marriage and civil partnership, and pregnancy and maternity. This includes Gender Reassignment (also known as Transgender).

The Accessibility Plan will be published on the school website.

Definition of special educational needs

In this policy, ‘special educational needs’ refers to a learning difficulty that requires special educational provision. The SEND Code of Practice 0 to 25 Years (DfE, 2014) says children have a learning difficulty or disability if they:

- have significantly greater difficulty in learning than the majority of children of the same age; or
- have a disability which prevents or hinders them from making use of facilities of a kind generally provided for children of the same age in mainstream schools or post-16 institutions; and
- are under compulsory school age and are likely to fall within either of the definitions above when they reach compulsory school age or would do so if special educational provision was not made for them.

Children must not be regarded as having a learning difficulty solely because the language or form of language of their home is different from the language in which they will be taught. Our Special Educational Needs Policy and Information Report outlines the school’s provision for supporting pupils with special educational needs and disabilities (SEND), and the Equality and Diversity Policy explains how we ensure equal opportunities for all our students, increased access to the curriculum, physical access to the school and access to information particular to students with SEND. This accessibility plan provides an outline of how the school will manage this part of the SEND provision.

The Accessibility Plan sets out the school’s plan in order to:

- (a) Increase the extent to which disabled pupils can participate in the school’s curriculum.
- (b) Improve the physical environment of the school for the purpose of increasing the extent to which disabled pupils are able to take advantage of education and benefits, facilities or services provided or offered by the school, and

(c) Improve the delivery to disabled pupils of information which is readily accessible to pupils who are not disabled and so that such delivery to disabled pupils is made within a reasonable time and in ways which are determined after taking account of the pupils' disabilities and any preferences expressed by them or their parents.

Our plan covers the following areas:

- Cognitive disorder
- Hearing impairment
- Visual impairment
- Physical impairment

Our plan will also take into account the voice of the pupil. Where possible, children will be given opportunities to share their concerns, their views and their ideas. Adaptations will be made as needed and the voice of the child will be heard and acted upon.
